

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mark Birringer  
DOCKET NO.: 05-22866.001-R-1  
PARCEL NO.: 14-17-314-053-0000

The parties of record before the Property Tax Appeal Board are Mark Birringer, the appellant, and the Cook County Board of Review.

The subject property consists of a seven-year-old, two-story, single-family dwelling of frame construction containing 2,544 square feet of living area and situated on a 3,125 square foot parcel. Features of the home include three and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a two-car detached garage. The subject is located in Lake View Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables. Based on the appellant's documents, the four suggested comparables consist of two-story or three-story, single-family dwellings of frame or masonry construction located within three blocks of the subject. The improvements range in size from 2,812 to 6,807 square feet of living area. Three of the suggested comparables are over 62 years in age and one comparable is one-year-old. The comparables contain from three and one-half to five full bathrooms, air-conditioning, two or three fireplaces and a multi-car garage. Three comparables contain a finished or unfinished basement. The appellant's evidence disclosed that his comparables one and three are gut rehabs. The improvement assessments range from \$6.00 to \$19.40

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,400  
IMPR.: \$ 70,046  
TOTAL: \$ 76,446

Subject only to the State multiplier as applicable.

per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$76,446. The subject's improvement assessment is \$70,046 or \$27.53 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, seven or 98-year-old, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,498 to 2,891 square feet of living area. The comparables contain two and one-half or three and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a two-car detached garage. The improvement assessments range from \$27.53 to \$32.31 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$27.53 to \$28.29 per square foot of living area. The subject's per square foot improvement assessment of \$27.53 falls within the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size, age and/or design. The board's comparable four is accorded less weight because it differs from the subject in size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

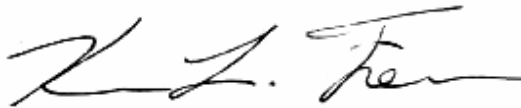

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
